

We can adapt together.

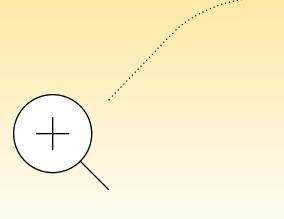

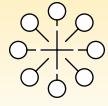

Ankrom Moisan has spent decades designing workplaces that support wellness and empower people to do their best work. With you, we can bring people back to a workplace that's happier, more productive, and healthier.

We're here to help.

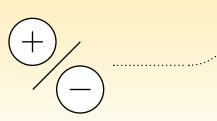

OFFICE / RESILIENCE IN THE WORKPLACE 2 © 2020 Ankrom Moisan Architects, Inc.

Our design process for the next normal.

Learn

Understand your employees' needs, challenges, risks, and opportunities of returning to the workplace.

Plan

Define a plan that prioritizes your culture, business strategies, clients, and employees' well-being.

Implement

Be willing to follow through by integrating the right tools, resources, and communication plans.

Adapt

Adapt to each new reality, observing and adjusting as things shift—now, near-term, and in the future.

We surveyed 300+ people about returning to their workplace.

INVEST IN WELLBEING

REDEFINE CONNECTION

FORTIFY TRUST

50%

cited concern about personal wellbeing when using conference rooms

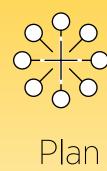

52%

of survey respondents want to come to the office to connect in person with their colleagues

build trust by providing meeting solutions that address employee concerns, adhere to health and safety guidelines and provide opportunities that allow people to opt in digitally when needed

With the right plan, we can do this.

We offer everything from full re-entry strategy and design to a quick set of construction drawings for minor modifications.

CONSULTING

Re-entry social distance planning and communication plans • Change management • Employee experience advisement • Updating guidelines and standards

PLANNING

Space planning • Flow diagrams to assist protocol, travel, and distancing needs • Occupancy plans • Sanitation and hygiene station placement

MOVE, ADD, CHANGES

Furniture consulting • Infrastructure updates • Expedited permitting drawings • Environmental graphic design and signage procurement • Specifications for material or technology changes • Security desk and PPE station design • Barrier installations

DESIGN AND CONSTRUCTION

Permitting and construction drawings for space modifications •

Demising permit drawings for subleases • Mechanical and plumbing review and updates

We're committed to healthier workplaces.

Working quickly and cost-effectively, we can design and implement strategies that help people feel safe about re-entering the workplace—and help our clients safely transition to a new workplace reality.

NOW

Sanitation • Spacing recommendations •
Flow analysis • Defining access limitations •
Environmental graphics • Communication plan •
Monitoring and screening • Change management resources • Temporary barriers

NEAR-TERM

Touchless technology • Furniture modifications •
Long-term barrier solutions • Minor architectural
reconfigurations • Infrastructure updates •
Mechanical and plumbing updates

FUTURE

Al integration • Major architectural reconfigurations • Material updates • Strategy development and planning
